Shermco Industries a Best Places to Work finalist

Presented by the Dallas Business Journal

DALLAS – Shermco Industries is once again ranked among Dallas' finest companies by the Dallas Business Journal, who recognized Shermco as a mid-sized company finalist for the publication's 2010 Best Places to Work.

The esteemed distinction was earned by being one of the top-scoring businesses in an employee survey administered by the Dallas Business Journal and the independent research firm, Quantum Market Research. Over 400 companies entered into the survey process, but only 23 mid-sized companies were chosen as finalists. A mid-sized company is defined as one with 100 to 499 local employees.

"Our company continues to expand and excel because we have dedicated employees that take a great deal of pride in what they do and who they work for," said Ron Widup, executive vice president of Shermco.

"We strive to be as committed to our employees as they are to their work and our company." This is the fourth time Shermco received recognition for this award by the Dallas Business Journal. Also, in 2009 Shermco was named the best small company to work for in Central Texas by the Austin Business Journal.

Finalists and the top companies in each category will be recognized at a luncheon Sep. 23 at The Adams Mark Hotel in Dallas, and also in the Dallas Business Journal's Best Places to Work special publication on Sep. 24.

ABOUT SHERMCO

[Shermco Industries](http://www.shermco.com) is a provider of safe, reliable testing, repair, professional training, maintenance and analysis of rotating apparatus and electrical power distribution systems and related equipment for the light, medium, and heavy industrial base nationwide. Founded in 1974 in Dallas, the company is comprised of two strategic business units; Machine Services Division and an Engineering Services Division. With a corporate location in Irving, Texas, a sales office in Brussels and service centers in Austin, Tulsa and Sweetwater, Shermco Industries has over 250 full-time employees. The company is a member in good standing with the Electrical Apparatus Service Association, American Wind Energy Association and the International Electrical Testing Association.
