### **Shermco Industries expands Tulsa, Okla. operations with purchase of new building**

TULSA – Shermco Industries, a leading provider of rotating apparatus and electrical power system testing, commissioning, repair, maintenance, outage management, and training, announced the purchase of a new building for the expansion of its Tulsa, Okla. office.

The 26,000 square foot building, is located at 4510 S. 86<sup>th</sup> East Avenue and expands Shermco’s presence in the Tulsa region. Jim Harrison, the Tulsa service center manager, said that Shermco established a presence in Oklahoma in 2008, and the growth of business dictated the move to a larger facility.

“The expansion will allow us to enhance our electrical power maintenance services and continue to grow,” said Harrison, “Shermco has experienced tremendous growth and the purchase of this facility will be extremely beneficial for the further expansion and reach of our Tulsa operations.”

### **ABOUT SHERMCO**

[Shermco Industries](http://www.shermco.com) is a provider of safe, reliable testing, repair, professional training, electrical outage planning, maintenance and analysis of rotating apparatus and electrical power distribution systems and related equipment for the light, medium, and heavy industrial base nationwide. Founded in 1974 in Dallas, the company is comprised of two strategic business units; the Machine Services Division and the Engineering Services Division. With a corporate location in Irving, Texas, a sales office in Brussels and service centers in Austin, Cedar Rapids, Des Moines, Houston, Sweetwater, and Tulsa, Shermco Industries has over 375 full-time employees. The company is a member in good standing with the Electrical Apparatus Service Association, American Wind Energy Association, Professional Electrical Apparatus Recyclers League, and the InterNational Electrical Testing Association.
