### **Shermco Industries' Austin office listed as a 'Best Places to Work' company**

AUSTIN – On June 6, Shermco Industries' executives attended the Best Places to Work in Central Texas Hollywood-themed luncheon and awards presentation. Shermco's Austin office was a finalist in this year's competition and ultimately recognized within their category.

Seventy companies in Central Texas were selected as finalists in the Austin Business Journal's 2012 Best Places to Work contest. According to the publication, each year the ranking seeks to honor the top companies that have the best climate, team atmosphere, benefits and most importantly, engaged employees.

“We are honored to receive this distinction. We try hard to make a good, safe and collaborative environment for our employees and it is so gratifying to know that our employees like and appreciate being a part of this company,” said Kevin Ewing, Shermco's Austin service center manager.

#### **ABOUT SHERMCO**

Shermco Industries is a provider of safe, reliable testing, repair, professional training, maintenance and analysis of rotating apparatus and electrical power distribution systems and related equipment for the light, medium, and heavy industrial base nationwide. Founded in 1974 in Dallas, the company is comprised of two strategic business units; the Machine Services Division and the Engineering Services Division. With a corporate location in Irving, Texas, a sales office in Brussels and service centers in Austin, Cedar Rapids, Des Moines, Houston, Sweetwater, and Tulsa, Shermco Industries has over 430 full-time employees. The company is a member in good standing with the Electrical Apparatus Service Association, American Wind Energy Association, Professional Electrical Apparatus Recyclers League, and the InterNational Electrical Testing Association. For more information about Shermco Industries, visit [www.shermco.com](http://www.shermco.com).
