**Shermco's Kevin Alewine presents at new WindTech 2012 event**  
*Participants learn hands-on techniques and engage with latest O&M technology*

DALLAS – Kevin Alewine, Shermco Industries director of Renewable Energy Services, delivered two presentations at [Windpower Engineering](#) and Development Magazine's [WindTech 2012 event](#) held in Sweetwater Texas on November 29 and 30. This new event, hosted by Texas State Technical College, concentrated on working with wind turbine technicians as well as students in the TSTC wind technician training program. The presentations were focused on wind turbine generator construction, testing and maintenance guidelines to improve the awareness of predictive and proactive maintenance of these critical machine components.

“This was a very useful event for the participants,” said Alewine. “They were able to get hands-on training, techniques and information on the latest O&M technologies directly from the leading vendors in the market.”

**ABOUT SHERMCO**

Shermco Industries is a provider of safe, reliable testing, repair, professional training, maintenance and analysis of rotating apparatus and electrical power distribution systems and related equipment for the light, medium, and heavy industrial base nationwide. Founded in 1974 in Dallas, the company is comprised of two strategic business units; the Machine Services Division and the Engineering Services Division. With a corporate location in Irving, Texas, a sales office in Brussels and service centers in Austin, Cedar Rapids, Des Moines, Houston, San Antonio, Sweetwater, and Tulsa, Shermco Industries has over 440 full-time employees. The company is a member in good standing with the Electrical Apparatus Service Association, American Wind Energy Association, Professional Electrical Apparatus Recyclers League, and the InterNational Electrical Testing Association. For more information about Shermco Industries, visit [www.shermco.com](http://www.shermco.com).
