**Shermco's Kevin Alewine selected as Technical Program Chair
For Windpower 2014**

DALLAS – Kevin Alewine, director of Renewable Energy Services for Shermco Industries, has been selected as the Technical Program Chair for Windpower 2014 to be held in Las Vegas on May 5-8.

Alewine will assist the American Wind Energy Association staff in organizing sessions, recruiting moderators and speakers as well as providing marketing guidance.

“This is a big job that I’m excited and honored to take on. Windpower is the premier wind energy event in this hemisphere and representatives from the whole industry, from suppliers to owners to wind tech schools, attend this event to take advantage of the diverse educational and networking opportunities,” said Alewine.

ABOUT KEVIN ALEWINE

Kevin Alewine is the Director of Renewable Energy Services for Shermco Industries with a focus on business development in the wind energy business sector including both maintenance services and community wind projects. He has extensive global experience with the manufacture and repair of electrical machinery, including wind turbine generators. Kevin is an active member of several IEEE and American Wind Energy Association working groups and is the Co-chair of the AWEA Operations and Maintenance Working Group responsible for developing and maintaining recommended practices for wind energy asset maintenance and operations management.

ABOUT SHERMCO

Shermco Industries is a provider of safe, reliable testing, repair, professional training, maintenance and analysis of rotating apparatus and electrical power distribution systems and related equipment for the light, medium, and heavy industrial base nationwide. Founded in 1974 in Dallas, the company is comprised of two strategic business units; the Machine Services Division and the Engineering Services Division. With a corporate location in Irving, Texas, a sales office in Brussels and service centers in Austin, Cedar Rapids, Des Moines, Houston, San Antonio, Sweetwater, and Tulsa, Shermco Industries has over 440 full-time employees. The company is a member in good standing with the Electrical Apparatus Service Association, American Wind Energy Association, Professional Electrical Apparatus Recyclers League, and the InterNational Electrical Testing Association.
