### **Paul Idziak to Co-present Webinar - Planning for Substation Maintenance and Reliability**

DALLAS – On April 24<sup>th</sup> at 2p.m. EDT, Paul Idziak, general manager of the Machine Services Division of Shermco Industries, will co-present a webinar entitled ‘Planning for Substation Maintenance’.

The webinar, presented by Windpower Engineering and Development, will cover the necessary steps in planning and performing substation maintenance so that together, owners and contractors, ensure a successful outage period during maintenance.

“Many companies find it difficult to determine exactly what is needed to properly plan preventative and routine substation maintenance,” said Idziak. “This webinar will give a blueprint to properly plan substation maintenance in order to minimize outage downtime.”

The webinar attendees will learn: why preventative maintenance is necessary; how to plan the maintenance; and, proper outage planning.

For more information or to register for the webinar, visit the [event page at Windpower Engineering and Development](#).

#### **ABOUT SHERMCO**

Shermco Industries is the leading independent provider of safe and reliable acceptance testing, commissioning, maintenance, repair and remanufacturing of electrical equipment and power distribution systems. With service centers located throughout North America, certified technicians and engineers focus on servicing both scheduled and unexpected projects for large commercial, industrial and utility customers. Shermco, a leader in electrical safety and technical training as well as industrial electrical contracting, utility, wind turbine maintenance and disaster recovery services. Shermco Industries is a member in good standing with the Electrical Apparatus Service Association, American Wind Energy Association, Professional Electrical Apparatus Recyclers League, and the InterNational Electrical Testing Association.
