Shermco's Jim White conducts training session at NTI annual event

DALLAS – Jim White, training director for Shermco Industries and author of “Electrical Safety - A Practical Guide to OSHA and NFPA 70E,” is guest presenting a class on overcurrent protection and co-teaching a National Joint Apprenticeship and Training Committee electrical safety class at the National Training Institute in Ann Arbor, Mich. this week. His training is part of a week-long intensive training session being held from July 28 through Aug. 1st at an annual event held by the NJATC.

The NJATC is the training arm of the International Brotherhood of Electrical Workers. Each year at this event they provide training and the latest technologies in the electrical industry to approximately 5000 union electricians from across the country

“We are a proud partner of NTI and I always look forward to this gathering of the best union electricians in the country,” said White.

ABOUT SHERMCO

Shermco Industries is the leading independent provider of safe and reliable acceptance testing, commissioning, maintenance, repair and remanufacturing of electrical equipment and power distribution systems.
