## **Shermco Industries to Host Webinar on Insulating Oil Analysis**

DALLAS – Shermco Industries, the largest independent electrical testing and maintenance company in North America, will present a one hour webinar featuring the testing and analysis of insulating fluids on Thursday, Aug. 21, 2014 at 10 a.m. CDT. There is no charge for this interesting and informative training event.

Presented by Gerald Sellers, lab manager for Shermco's Oil Analysis Laboratory, the webinar will cover predictive testing of large liquid filled power and distribution transformers, a core element of a comprehensive electrical maintenance strategy for power distribution systems. Sellers will review the following:

- What is insulating oil and why do we use it?
- Why analyze insulating oil?
- What tests should be performed and what do they tell you?
- DGA and predictive testing explained.

Sellers is a 30 year seasoned professional in the field of oil analysis. He has designed and installed analytical labs, established testing procedures and protocols and trained lab technicians across the US. Sellers is a level 1 and 2 Machinery Lubricant Analyst certified through ICML and maintains current status on procedures and methods issued by ASTM and IEEE.

To more information and to register for the webinar, visit the [Insulating Oil Analysis registration page](#).

### **ABOUT SHERMCO**

Shermco Industries is the leading independent provider of safe and reliable acceptance testing, commissioning, maintenance, repair and remanufacturing of electrical equipment and power distribution systems. With service centers located throughout North America, certified technicians and engineers focus on servicing both scheduled and unexpected projects for large commercial, industrial and utility customers. Shermco, a leader in electrical safety and technical training as well as industrial electrical contracting, utility, wind turbine maintenance and disaster recovery services, is a member in good standing with the Electrical Apparatus Service Association, American Wind Energy Association, Professional Electrical Apparatus Recyclers League, and the InterNational Electrical Testing Association. For more information about Shermco Industries, visit [www.shermco.com](http://www.shermco.com).
