**Shermco Industries to Sponsor Opening Night Hospitality Reception
at 47th Annual Transmission and Substation Design and Operation Symposium**

DALLAS – Shermco Industries today extended an invitation to all the attendees of the 47th Annual Transmission and Substation Design and Operation Symposium to an opening night hospitality reception.

The hospitality event will be hosted by Shermco at the Crowne Plaza Hotel in Addison, Texas, on Wednesday, Sept. 10, 2014, and will feature cigar rolling demonstrations, whiskey tastings and light refreshments.

“We appreciate this opportunity to keep up with improvements in electrical grid technology and to visit with industry friends, new and old. We always look forward to TSDOS and hope to see everyone come out for the opening night event,” said Ron Widup, Shermco CEO.

TSDOS is designed to promote the exchange of ideas and experience for the benefit of those people concerned with transmission and substation design and development. This year the conference will be held Sept. 10-12. For more information visit the [TSDOS event page](#).

ABOUT SHERMCO

Shermco Industries is the leading independent provider of safe and reliable acceptance testing, commissioning, maintenance, repair and remanufacturing of electrical equipment and power distribution systems. With service centers located throughout North America, certified technicians and engineers focus on servicing both scheduled and unexpected projects for large commercial, industrial and utility customers. Shermco, a leader in electrical safety and technical training as well as industrial electrical contracting, utility, wind turbine maintenance and disaster recovery services, is a member in good standing with the Electrical Apparatus Service Association, American Wind Energy Association, Professional Electrical Apparatus Recyclers League, and the InterNational Electrical Testing Association. For more information about Shermco Industries, visit www.shermco.com.
