### **Shermco Executives to focus on Balance of Plant and the Regulatory Future at AWEA Wind Project O&M and Safety Seminar**

SAN DIEGO – Two Shermco executives will provide session expertise at the upcoming AWEA Wind Project O&M and Safety Seminar to be held in San Diego at the Hotel Del Coronado, Feb. 2 – 3.

James White, Shermco Industries training director and a recognized expert in electrical safety, will speak on the ‘Regulatory Future’ from 8:15 – 9:30 a.m. on Feb. 3. He will specifically discuss ‘Arc Flash PPE Requirements in NFPA 70E-2015’ and ‘OSHA 1910.269/1926 Subpart V.’ Afterwards, Paul Idziak, Shermco Industries vice president of the Machine Services Division, will present ‘Balance of Plant for the Owner/Operator’ from 9:30 – 10:30 a.m. Balance of plant issues are increasingly an important part of the ongoing operation of a project. This session will address key planning and operational challenges from an owner/operator standpoint. Substation maintenance planning and interconnection challenges and more will be discussed.

Kevin Alewine, Shermco Industries director of marketing, will also provide updates as the Chair of the AWEA Operations and Maintenance Working Group.

The AWEA Wind Project O&M and Safety Seminar is where leading owners, operators, turbine manufacturers, material suppliers, wind technicians, managers, supervisors, engineers, and occupational environmental, health and safety professionals come together to: share the are best strategies to manage wind project assets; analyze the environmental, health, and safety challenges workers face; learn about the future of the U.S. O&M market; and network with top asset managers, OEMs and vendors.

#### **ABOUT SHERMCO**

Shermco Industries is the leading independent provider of safe and reliable acceptance testing, commissioning, maintenance, repair and remanufacturing of electrical equipment and power distribution systems. With service centers located throughout North America, certified technicians and engineers focus on servicing both scheduled and unexpected projects for large commercial, industrial and utility customers. Shermco, a leader in electrical safety and technical training, focuses on industrial electrical contracting, utility, wind turbine maintenance and disaster recovery services. Shermco Industries is a member in good standing with the Electrical Apparatus Service Association, American Wind Energy Association, Professional Electrical Apparatus Recyclers League, and the InterNational Electrical Testing Association. For more information about Shermco Industries, visit [www.shermco.com](http://www.shermco.com).
