Shermco Executives to Present at 82nd Annual International Conference of Doble Clients

BOSTON – Kevin Alewine and Tom Sandri, executives with Shermco Industries, will present at the 82nd Annual International Conference of Doble Clients held in Boston March 22 -27, 2015.

Alewine will present *Wind Turbine Generator Failure Modes and Occurrences – 2014 Update*. Sandri will speak on *Medium Voltage Cable Testing – Exploring Developments over the Past 20 Years*. His paper will explore developments in testing and evaluation of medium voltage cable seen over the last 20 years. The intended application of each technique along with the advantages and limitations of the technique will be reviewed, providing the knowledge necessary to develop an effective cable testing program.

Hosted by Doble Engineering, [the Conference](#) is designed exclusively by and for the benefit of the electric utility and testing company delegates. The Conference program is created by nine client committees, each having unique expertise in a particular area.

ABOUT SHERMCO

Shermco Industries is the leading independent provider of safe and reliable acceptance testing, commissioning, maintenance, repair and remanufacturing of electrical equipment and power distribution systems. With service centers located throughout North America, certified technicians and engineers focus on servicing both scheduled and unexpected projects for large commercial, industrial and utility customers. Shermco, a leader in electrical safety and technical training, focuses on industrial electrical contracting, utility, wind turbine maintenance and disaster recovery services. Shermco Industries is a member in good standing with the Electrical Apparatus Service Association, American Wind Energy Association, Professional Electrical Apparatus Recyclers League, and the InterNational Electrical Testing Association.
