Shermco Industries completes Project at Jansen Lake Potash Mine

REGINA – As of January 28, 2015, Shermco Industries Canada is pleased to announce that it has been issued a letter from Stantec Consulting LTD establishing that Shermco Industries Canada has substantially completed the Phase 1 Head frame Electrical and Instrumentation contract at the Jansen Lake Project for BHP Billiton. Shermco Industries Canada is now in the contract release and holdback portion of the contract.

The Jansen project, which BHP Billiton calls the world's best undeveloped potash resource, is located approximately 140 kilometers east of Saskatoon, Saskatchewan.

ABOUT SHERMCO

Shermco Industries is the leading independent provider of safe and reliable acceptance testing, commissioning, maintenance, repair and remanufacturing of electrical equipment and power distribution systems. With service centers located throughout North America, certified technicians and engineers focus on servicing both scheduled and unexpected projects for large commercial, industrial and utility customers. Shermco, a leader in electrical safety and technical training, focuses on industrial electrical contracting, utility, wind turbine maintenance and disaster recovery services. Shermco Industries is a member in good standing with the Electrical Apparatus Service Association, American Wind Energy Association, Professional Electrical Apparatus Recyclers League, and the InterNational Electrical Testing Association.
